

## WILSON'S STRIKE COMMISSION ARE UNABLE TO AGREE

Split on Questions of  
Wage Increases and  
Hours of Work

## TWO REPORTS GIVEN OUT

(By The Associated Press)  
WASHINGTON, March 11.—President Wilson's coal strike commission has split definitely on questions of wage increases and hours of work.

The majority—Henry M. Robinson, chairman, representing the public and Rembrandt Peale, representing the operators, in a report submitted to President Wilson today is understood to have recommended a general wage advance of approximately 25 per cent and that hours and conditions of labor remain unchanged. This includes the 10 per cent granted after the miners returned to work.

John P. White, representing the miners, refuses to concur. He is preparing a minority report in which it is reported he will recommend a seven hour day and a wage increase of approximately 35 per cent.

In advance of the publication of the reports, officials of the United Mine Workers of America would not discuss the probable course of the miners. Since their representative had refused to accept the majority decision however it was regarded certain they would not accept the settlement it proposes.

Green is Hopeful.

William Green, secretary of the miners' union after a conference with Secretary Tumulty said there was no radical difference between the majority and Mr. White's report. He expressed the hope that the differences would be ironed out.

President Wilson in inviting members of the commission to undertake a settlement said it was important that their conclusions be unanimous.

Since the decision is not unanimous there is much speculation as to the president's next step.

The operators would not discuss this matter but it was plain that the miners and some administration officials expected Mr. Wilson to invite the two sides to get together on the basis of the majority and minority reports and seek a settlement.

The majority report is being withheld from publication until Mr. White's report is submitted to the president. The members of the commission refused to discuss it and there seemed to be doubt whether it recommended an advance in the price of coal.

In addressing the commission the president said, "If a readjustment of prices of coal shall be found necessary I shall be pleased to transfer to the commission the powers heretofore vested in the fuel administration."

While the commission was understood not to have asked for these powers it was suggested in some quarters that the commissioners would propose that some price advance be made.

Included among the majority report's recommendations it was understood were retention of the check off system by which operators collect the dues for the unions and referred to the question of differentials in wages to a special commission to be appointed by the next joint wage conference to report within two years.

Hearing Began in January.

The committee began its hearings January 12, with the understanding between the government and the miners that its report would be made within sixty days. The commission would have no authority to enforce its findings had its report been unanimous. However when it began hearings the miners agreed to abide by its decision and the operators accepted its jurisdiction with the reservation that they could not be bound by any price advance for a period subsequent to the life of the Lever food control law as this might subject them to prosecution under the anti-trust laws. Through the hearings the operators insisted that many mines could not operate if wages were advanced unless there was a corresponding increase in coal prices. The miners contended against this position and charged that the operators had made large profits during the war. The miners originally demanded a sixty per cent increase and thirty hours of work per week. In the conference the operators called by Secretary Wilson after the government had obtained an injunction to end the coal strike their representatives agreed to accept Mr. Wilson's proposal for a 31.6 per cent increase and a seven hour day.

The approximate increase of 35 per cent it was reported Mr. White would recommend was said to have been worked out on the same basis as was that of Secretary Wilson and that the increase in the cost of living since November had been added.

Wage increases were said to have been calculated by the majority on the basis of tonnage for

## OPPOSE M'ADOO'S SOLDIER RELIEF PLAN

Additional Bonds Would Create  
Grave Financial Situation  
Secretary Houston Tells Committee.

(By The Associated Press)  
WASHINGTON, March 11.—Opposing former Secretary McAdoo's plan to reduce taxes by additional bond issues, Secretary Houston and Assistant Secretary Leffingwell today told the house ways and means committee, considering soldier relief legislation any increase in the government indebtedness would create a grave financial situation.

Secretary Houston predicted a bond issue of \$2,500,000,000 necessary under certain plans of adjusted compensation before the committee might result in a disaster. "The worst thing would be to give bonds to former soldiers, as a majority would cash their holdings immediately."

Both suggested increased taxes "as the least harmful way to extend relief," the assistant secretary asserting even a tax on normal incomes would add to the cost of living and be directly felt by the people least able to bear it.

A future bond issue would have to bear six per cent interest and would be a much more serious proposition than during the war, Governor Harding of the federal reserve board said.

Even under increased taxes, Secretary Houston said, the proposed expenses of two billion dollars, "would be a serious one for the people to confront."

"The present financial situation is not critical," Mr. Houston commented. "Economy by the people, avoidance of waste in expenditures, economical appropriations by congress and prudence in handling these appropriations will relieve the situation."

STILL IN JAIL

Metternich reiterated his original testimony that the prince not only "threw out the swine" but that he also threw crockery and glassware.

1,046 PROSECUTIONS  
UNDER LEVER ACT

Pick and machine mining, a percentage increase for yardage and dead work, and a flat advance for day laborers. The increases are not uniform for all mines, varying in accordance with cost of production.

## FATE OF PEACE TREATY DEPENDS ON ARTICLE TEN

Senators Work With  
Renewed Effort for  
Compromise

## FINAL VOTE SATURDAY

(By The Associated Press)  
WASHINGTON, March 11.—During a truce in peace treaty debate today, senators aggressively shelled their forces for a compromise on article ten. Some semblance of cohesion was restored among compromise advocates on the Republican and Democratic sides but the total votes that could be counted for any compromise still was short of the necessary two thirds.

Resurrecting the new Republican substitute for the article ten reservation Republican leaders agreed on some changes in wording in the hope they might regain support of the handful of Democratic senators whose refusal to support the substitute yesterday started a general breaking up of the compromise situation. It was understood they had not entirely succeeded tonight.

Among Democratic compromise advocates who claimed upwards of thirty Democratic votes for the substitute last night's work was continued aggressively and the leaders asserted they had made further gains. Late in the day however, senator Hitchcock, Democratic leader started a counter-offensive against the new reservation with the result that the status of compromise on the Democratic side became almost as uncertain as it was among Republicans. The best claims that were made tonight by the most optimistic advocates of compromise fixed the Democratic support at thirty votes. That reckoning, if correct, would leave a shortage of two votes from the 60 necessary to ratify the treaty.

The situation contained many interesting possibilities, there being intimations that the Democrats were planning to introduce the substitute if the Republicans failed to do so. There also were more rumblings of discontent among Republican mild reservationists.

Tomorrow the treaty will be taken up again formally, the leaders do not expect a final vote on article ten before Saturday.

WILL CONTINUE  
ANTI-TRUST SUITS

Washington, March 11.—Regardless of the decision by the supreme court in the steel corporation case, the department of justice will proceed against all corporations alleged to be trusts, it was announced today by Attorney General Palmer, who said the steel case does not indicate what the high court will do in other similar trials.

He added that the department staff had given careful consideration to the steel decision and had found there were many differences from a legal standpoint in all other cases now being prepared.

"Mature study" of the steel corporation decision, the attorney general said, disclosed no weakness in the Sherman act under which the suits were brought. Officials explained that the four to three decision—the vote in the steel trust case—could not be construed as meaning that was the view of the high court on the Sherman law.

Nine anti-trust suits are before the supreme court.

## MANY KILLED IN MISSOURI TORNADO

SPRINGFIELD, Mo., March 11.—As a result of heavy rains in the Ozark region the last 24 hours, the White river was rising rapidly tonight and threatening the huge dam at Powersite, Taney county, thru which electrical current is furnished numerous south Missouri towns, including Joplin and Springfield.

The dam which is 600 feet long and ninety feet high, was holding back the flood waters tonight.

SPRINGFIELD, Mo., March 11.—Eleven persons are known to be dead, one reported dead, two missing and eight injured as the result of a tornado which swept thru the valley of Turkey Creek near Branson and Hollister, in Taney county today. Seven of the dead are children of Ron and William Box, brothers living at Melva, five miles south of Branson.

William Box lost four children killed and his brother three. In addition the wives of both received injuries from which it is believed they cannot recover.

Mrs. Alva Howard and child at Melva were killed instantly and William Jackson, five miles southeast of Branson, is reported dead. Two sisters of Jackson were missing, but were found, one seriously injured. John Cross and his wife, near Oasis, were blown away with their home and no trace has been found of them.

Ridgway Manky was carried 1,000 feet from his home at Melva and when he regained consciousness on the opposite bank of Turkey Creek, he saw his young brother William struggling in the water. He was too weak to give aid. Later the boy's body was recovered. The bodies of the Box children, according to reports, were taken from Turkey Creek, which had been swollen to large proportions by incessant rains. Roads were impassable and there was no school in most localities today. Many children playing away from home are believed to have been caught unawares by the storm and injured.

The storm was not confined to Melva. Reports of homes carried away, buildings destroyed and children injured continued to pour in. The storms swept thru a district including Melva, Kirbyville, Taneyville, Mildred, Oasis, Forsyth and Branson, altho not so fiercely in the last two towns.

The entire area is well known to thousands of tourists who annually visit the Ozark region which is known as the "Shepherd of the Hills" country.

A work train of eight cars south of Branson and on which the wives of six workmen lived was moved 200 feet down the track and the cars uncoupled but no one was hurt. The hotel at Melva was practically demolished while six women were seated near the fire place. Falling bricks, plaster and splinters struck but one woman and she was not seriously injured.

URGES U. S. MANDATE  
OVER ARMENIA

WASHINGTON, March 11.—Recommendations that the United States accept a mandate over Armenia are understood to be contained in the report of the American mission under Major General Harbord which recently made a tour of inspection in that country to obtain facts on Turkish rule.

The report never has been published altho the senate twice has requested President Wilson to transmit a copy.

It was said today some senators had knowledge of the recommendation of an Armenian mandate and that they had attributed the president's silence to the presence of this recommendation in the report.

Reports from Paris after the mission had returned there say the civilian and military members were sharply divided on the advisability of recommending that the United States accept a mandate for the former province of the Ottoman empire.

The latter opposing such a recommendation, General Harbord has refused to discuss the mission's report.

INDEPENDENT STATE

## OPERATORS AND MINERS CHARGED WITH CONSPIRACY

125 Indicted for Violation of Lever Fuel Control Act

## NAMES NOT MADE PUBLIC

(By The Associated Press)  
INDIANAPOLIS, Ind., March 11.—An indictment charging conspiracy in violation of the lever fuel control act and the federal criminal code, naming 125 coal operators and miners as defendants, was returned in federal court late today by a special grand jury which has been investigating the coal industry since December 17. More than half the defendants are operators, it is said.

Bond was fixed by Judge A. B. Anderson at \$10,000 in some cases and \$5,000 in others. The defendants will be arraigned May 4. Names of those indicted will not be made public until they are arrested.

Ten overt acts are charged against the coal men in the indictment which contains eighteen counts. It is understood many of the violations charged have no connection with the strike but occurred prior to the signing of the armistice.

The indictment was brought under sections four and nine of the Lever act and section thirty-seven of the criminal code, and charged that miners and operators conspired to enhance the price of necessities by restricting distribution, limiting manufacture and by other means by conspiring to commit offenses against the United States as defined in the criminal code. The penalty on conviction is a fine not exceeding \$10,000, imprisonment for not more than two years, or both.

While no names were made public it was learned practically all those facing charges are active in the central competitive field, which embraces Indiana, Illinois, Ohio and Pennsylvania. The grand jury was instructed to go fully into all reports of violations of the Lever act without regard to the place of origin of the reports.

The grand jury was called in to special session to investigate affairs of the coal operators and miners. The jury offered its report 49 days later. It was completed Dec. 17, but adjourned at night to give officials an opportunity to obtain witnesses and prepare records.

The investigation was in charge of Dan W. Sims of LaFayette, Ind., special assistant United States attorney general and L. Ert Slack, former United States district attorney who was appointed special assistant district attorney after his term had expired, to aid in the investigation. It was said that the grand jury examined more than three hundred persons, included among those are Dr. H. A. Garfield, former federal fuel administrator, Cyrus Garney, assistant to Dr. Garfield and many coal operators and mine union officials.

Judge A. B. Anderson of United States district made the announcement that a federal grand jury investigation was to be made Dec. 4, 1919, when Mr. Slack issued a written statement setting forth the purpose and scope of the investigation. The fundamental purpose of the effort was to determine "whether this is a government of law or a group of men."

Judge Anderson's determination to call the grand jury was based largely, according to Mr. Slack's statement on the alleged facts disclosed in an information filed with the court in connection with the coal strike.

In this information it was set forth that the officials of the miners' union had violated the injunction issued by the court and there were indications a conspiracy to violate the Lever act might be traced far beyond officers of the United Mine Workers of America and the mine workers themselves.

## COMMENT ON WILSON'S LETTER TO HITCHCOCK

London Papers Views Differ on  
Contents—Globe Declares Wil-  
son Unfitted to Deal With Af-  
fair.

(By The Associated Press)  
London, March 11.—The Globe in commenting on President Wilson's letter to Senator Hitchcock says it "raises the query as to whether it is indicative of his being so far restored to health that he must speak plainly or whether it shows his condition to be such he cannot restrain from manifesting his private petulance by public indiscretions. Be that as it may, the president's true friends will deplore an unworthy and almost invariably outburst which will lay him open to pointed retorts from our French allies."

The Globe declares President Wilson is temperamentally unfitted to deal successfully with a position demanding a certain measure of give and take. "The world has suffered and is suffering."

"We cannot help wondering what would be said in the United States should Deschanel write to Millerand asserting that the money making element is in control of the United States."

The Globe says Mr. Wilson's "recent ebullitions elicit a certain degree of sympathy for the United States."

SUMMON JURORS  
BY AEROPLANE

Bloomington, Ill., March 11.—Legal service by aeroplane in summoning a jury for a murder trial will be tried in this county tomorrow probably for the first time in the state of Illinois. A twenty-four hour rain has made the country roads impassable in Central Illinois and the special venire for the murder trial of Edgar A. Strause of Peoria for the killing of Berne Mead, Sheriff Stafford today engaged Lyle D. Balbach of Chenoa, who owns an aeroplane and is also a deputy sheriff, to take the list of veniremen chosen today and living in different parts of the county and starting from his home in Chenoa to make a flight to each neighborhood and serve the papers on the men in the call.

Three new jurors were tentatively accepted today in court.

HOUSE REFUSES TO  
AMEND ARMY BILL

WASHINGTON, March 11.—Without a record vote the house today refused to amend the armymen's reorganization bill to make General Pershing the permanent chief of staff and approved the section permitting the secretary of war to make the selection.

Representative Strong, Republican, offering the amendment declared, "without it Pershing's war experience in the management of the army will be lost," but Representative Green, Republican and Representative Caldwell, Democrat, contended that the secretary of war should be free to choose "the chief military adviser."

General Pershing's assignment as chief of staff, Mr. Caldwell said, "would be a step down."

BERGER OBTAINS  
ANOTHER CONTINUANCE

Chicago, March 11.—Victor Berger and four other socialist leaders sentenced on January 23 of last year to serve 20 year sentences for draft obstruction obtained another continuance when the case came up in the United States court of appeals today. By agreement of attorneys the case was continued indefinitely.

The five affected are: Berger, the Rev. Irvin St. John Tucker, Adolph Gerstl, J. Louis Engel, and William F. Kruse. All are at liberty under bonds.

URGES MERCHANT  
MARINE LEGISLATION

Washington, March 11.—Congress should include in merchant marine legislation a specific direction to the shipping board to sell the government owned fleet but should give the board full discretion as to how and when sales should be made, Chairman Payne today told the senate commerce committee.

"The provisions for selling," he said, "should be included in the legislation by congress to fix the policy of the government, if that is the policy."

CAULLAUX TRIAL

## SIMS DECLARES FLEET WAS NOT READY FOR BATTLE

Admiral Makes More  
Charges Before Sen-  
ate Body

## PAYS TRIBUTE TO OFFICERS

(By The Associated Press)  
WASHINGTON, March 11.—Charges that the Atlantic fleet was not kept ready for battle during the war were added by Rear Admiral Sims to his arraignment of navy department policy in testimony today before the senate investigating committee.

He said that frequent pleas for American warships were disregarded and months were lost in dispatching a squadron of battleships to join the British fleet. When the squadron finally was ordered abroad, he said it was composed of four ships of different types, evidence that other ships to form a homogeneous unit were "not ready." He read a message from the navy department showing that after the four were selected, it was necessary to dock them before they could proceed, a delay of another two or three weeks.

He paid tribute to officers and men of the battleships who were paid by the admiral who said the work of fitting into the British fleet was accomplished in four days. Service with the British he pointed out, necessitated abandonment of all American codes and signals and adoption of the British system.

Requests for American forces to supplement the allied naval patrol, Admiral Sims asserted, were refused at first by the navy department on the ground that the future position of the United States must in no way be jeopardized by disintegration of our main fighting fleet.

The admiral declared he was wholly unable to conceive of any war policy especially in a world war, based on requirements of possible future wars.

Admiral Sims charged it was three months after the United States entered the war before he secured a statement of the navy department's policy; that for seven months the department failed even to answer his cables on sending battleships and then denied the request, but a month later reversed its position and ordered the sixth battle squadron abroad; that he first urged the despatch of all available ships to the war zone April 23, 1917, but no ships arrived for a year, altho 43 were available to the navy department the day war was declared in addition to many owned by private concerns; that altho he asked on June 28, 1917, that American submarines be sent to the war zone it was four months before his request was complied with and then but five submarines were sent, five more arriving in four months.

Admiral Sims requested that the committee call Herbert Hoover to substantiate his statement that the war was in danger of being lost by the failure of the German submarine campaign. The committee agreed to ask Mr. Hoover to appear Saturday.

## IT MAKES LITTLE DIFFERENCE

One coal producing firm has brought suit against the federal trade commission to test the legality of the law whereby the company has been required to file report of sales with the commis-

sion. The public will not be very much interested in the progress or the result of this suit, for the reason that if there ever had been any benefits to the consumer from federal trade supervision of the coal industry, Mr. Consumer is not aware of that fact.

## THE ISSUE IS CLEAR

The state highway department has dispelled the doubt about road building plans for this year. The definite statement has been made that no more contracts will be let until prices go lower.

Now the men who control road building materials will know for sure that the state is not bluffing and that the big road making project is on the shelf. Evidently it will be up to the material men to let it remain there or bring the materials down to more reasonable levels.

## EQUAL SUFFRAGE SOON HERE

The suffrage leaders are making good their promise that the

Anthony amendment will be a part of the constitution before the fall election. One of the most spectacular of the campaigns for suffrage was in West Virginia, with favorable action taken in the house of delegates by a vote of 15 to 4. One senator made a trip of 3,000 miles partially by special train, in order to be present and cast his vote for the rights that have so long been denied women.

Now only two more states are needed and the adoption of the amendment is just a matter of a few weeks' time.

## WILL HELP BUSINESS CONDITIONS

While the treasury department has recommended that no more loans be made by the U. S. to foreign countries, it is proposed to defer the requirement of interest payments for several years. The action will relieve the debtors from annual payments running to \$450,000,000 and should help greatly in lessening the financial stress of these same nations.

It will be a case of bread cast upon the waters too, for the less the stringency overseas, the bet-

ter will be business and financial conditions here.

## THE SENATORIAL CONTEST

It seems to be pretty well understood in state political circles that Congressman Frank L. Smith, chairman of the state Republican committee, will be a candidate for the U. S. senate. The congressman has been looked upon as certain to enter the gubernatorial race and so the change in his aspirations has created some surprise.

It is certain that he will be a formidable candidate whichever office he seeks. He is credited with having the promised support of the Chicago city administration. It will make an interesting contest with Congressman Smith, Congressman McKinley, Edward D. Shurtliff and Col. Chipperfield all in the running.

## SOME SERIOUS FACTS TO CONSIDER

Supt. Blair in a recent plea for higher pay for teachers in state schools, declared that there are 12,000 incompetent teachers at work in the state of Illinois. He attributes this condition to the fact that such comparatively low salaries have been the rule.

Another statement of the superintendent challenged the attention, for he said that the per capita school expenditure for children in the state is figured at \$50, whereas in some states it runs as low as \$11. Certainly some plan should be followed for raising the standard of teachers' qualifications and also for more equal distribution in the educational privileges that are provided.

## Rippling Rhymes By Walt Mason

**The Popular Game**  
Every one is profiteering, every one is profit-struck; no one's pleased unless he's clearing ninety cents on every buck. I would buy myself some clothing—something—myself would suffice—but my soul is filled with loathing when I contemplate the price. I would buy a slab of bacon, but the man who sells the same by his conscience is forsaken, and his prices are a shame. I would like to paint my shanty, whose appearance is a frost, but the burning words of Dante can't do justice to the cost. Now and then I go a-questioning for the reason for this craze; and the blame is always resting on some distant nameless jays. Oh, the blame is never local, it is always most remote; and each man, profanely vocal, says some other's got his goat. Vain is all our loud resistance to the graft that makes us sick; always in the hazy distance are the knaves who do the trick. Always in elusive shadow is the profiteering group, which has found its El Dorado, while consumers find their soup. Far away the robbers shameless who harpoon us through and through; and your merchant prince is blameless—he gets stung as well as you.

## THE PARTNER'S INCOME TAX

Individuals carrying on business in partnership or as a personal service corporation are taxable personally upon their distributable shares of the net income of such firm, whether actually distributed or not. The firm must file an annual return on Form 1065, showing how the net profit or loss was computed, and how distributable among the members.

The partnership or personal service corporation will not pay income tax directly. Each partner or member must determine his personal liability for a return and a tax.

Any salary drawn is taxable, but he is not taxable on withdrawal of capital. If he had any income from other sources, aside from the firm, these items must be considered in determining liability and preparing a return.

If the firm's account period differs from the calendar year, the members must consider as 1919 income the earnings of the business year ending in 1919, and they must each compute the tax according to instructions on Form 1040.

Returns and payments must reach the Collector of Internal Revenue by March 15, 1920.

## MISS SORRELLS WEDS FORMER SOLDIER

Murrayville Young Woman Is Bride of Guilford Branson—Will Live in Texas.

The marriage of Miss Edna Sorrells to Mr. Guilford Branson, was solemnized Thursday morning at 9:30 o'clock at the home of Mr. and Mrs. C. R. Short in Murrayville. The ceremony was performed by Rev. C. S. McCullion of New Holland, formerly pastor of the Murrayville Methodist church.

Before the ceremony Miss Florea Short sang "At Dawning." Then Mrs. Short played the Mendelssohn march and the bride and groom to be stood before the minister. It was in every way a very pretty ceremony. The bride was attired in a blue serge suit.

A few hours later Mr. and Mrs. Branson, left for St. Louis, and after spending two days there will go to their new home in Dallas.

Mrs. Branson, spent most of her life in Murrayville. After graduating from the high school there she took a three years' course of training at Passavant hospital. In the war time she entered the army nursing service and was located at Camp Travis, Tex. It was there she met Mr. Branson, who was in the army service. Their war time romance was not of the fleeting kind and so the marriage vows were spoken Thursday in the presence of a limited company of relatives and friends.

While a resident in Murrayville Mrs. Branson was actively identified with the Methodist church and it was because of that fact that Mr. McCullion was asked to return for the marriage service.

The groom is a man of established reputation in his home city. He has been engaged in the milling business but is to be associated with his brother in the ownership of a garage.

The company yesterday included, besides Mr. and Mrs. C. R. Short, and family, Mr. and Mrs. C. J. Wright, Mr. and Mrs. C. T. Daniel, Mrs. W. W. Walker, Mrs. W. A. Wesner, George Kennedy and Leaton Branson, brother of the groom.

Mrs. A. R. Gregory will give a group of songs at meeting of Jacksonville Woman's Club, Saturday, 2:30, at Odd Fellows Temple.

ROBT. P. NUNES.

H. W. Boring, a well-to-do Kansas farmer, says he has gained twenty pounds in weight and is in better general health than he has been in years since taking Tanlac.

"Since Tanlac has overcome my troubles I have gained twenty pounds in weight and am in better general health than for years past," was the straight-forward statement made a few days ago by H. W. Boring, prominent and well-to-do farmer living at Overland Park, Kans.

"During the two years I suffered I tried everything I knew of to get relief, but nothing seemed to reach my case until I tried Tanlac. My appetite was poor and my digestion was so bad I could hardly retain my food. Nothing agreed with me; in fact I was almost a confirmed dyspeptic. My whole system seemed to be out of shape. I would have pains across the small of my back so bad at times I could hardly move around."

"My nerves were all unstrung and I would become upset at the least little thing. I seldom slept well at night and, finally, became so weak and run-down that I lost weight rapidly. I was also troubled a great deal with catarrh and of mornings had to spend a half hour or more clearing up my head."

This is just the condition I was in when I began taking Tanlac and it certainly has been a blessing to me. It just seemed to be made especially for my case. I improved from the very first. My digestion now is perfect and regardless of what I eat I never suffer any bad after effects."

"The pains across my back have entirely disappeared. The catarrh has left me, too, and my head is perfectly clear. I am no longer nervous and rest well every night. I have regained my lost weight and am feeling better and stronger than I have in years. I am going to keep Tanlac in my house so it will be handy at all times."

Tanlac is sold in Jacksonville by Coover & Shreve and by the leading druggist in every town.—Adv.

## BURGARS ROB HOME OF GEORGE W. SMITH

Burglars entered the home of  
George W. Smith on West College  
street Thursday evening.  
Mr. and Mrs. Smith went down  
town to attend a show and when  
they returned home found the  
house had been entered. The  
thieves gained entrance by cut-  
ting out a window pane and un-  
fastening a catch.

The only thing Mr. Smith missed  
was a Smith & Wesson revolver.  
The robbery was reported to the  
police but at the time of going to  
press no clue had been obtained.

## CHURCH OFFICERS AND WIVES HOLD MEETING

The officers of Central Christian  
church and their wives met at the  
church last evening for an excellent  
supper which was enjoyed by the  
ladies of The Loyal Woman's class.  
After the supper C. L. Mathis made  
a short talk on the pre-Easter cam-  
paign. W. E. Sullivan also spoke.  
Rev. M. L. Pontius then told about  
the Inter-Church Convention in Chi-  
cago from which he had just re-  
turned.

DAMAGED BY LIGHTNING  
During the early morning storm  
Thursday lightning struck the home  
of James E. Bossart, 1612 South East  
street. The shingles were torn off a  
portion of the roof and undoubtedly  
there would have been a fire except  
for the fact that heavy rain was  
falling. Fortunately it was not long  
until the rain stopped so there was  
no danger of the building being wa-  
terlogged. The building is the property  
of Miss Emma Cook.

## WOULD PREVENT WATER POLLUTION

Proposal at Con Con By Delegate  
Show Relates to Public Health  
and Fishing Industry.

Guy L. Shaw of Beardstown, dele-  
gate to the constitutional convention,  
has introduced a proposal to prevent  
the pollution of rivers and lakes of  
the state. The measure has a direct  
relationship to public health and to  
the fishing industry in the Illinois  
river and the Mississippi river of the  
state. It is also a matter of great concern  
to residents and land owners in drain-  
age and levee districts.

The proposal was ordered printed  
and has been referred to the com-  
mittee on constitutional subjects. Mr.  
Cyrus Dietz, is the chairman of the  
committee and any person especially  
interested in having the proposal con-  
sidered should write to Mr. Dietz in  
care of the constitutional convention  
and urge this action. The proposal is  
as follows and is in the following  
language:

Sec. 1. That the following shall  
become a part of the Constitution of  
Illinois: Sec. 1. No city, village, in-  
corporated town or other municipality  
within this state, or any person, firm,  
association or corporation shall pol-  
lute, or cause to be polluted, any of  
the rivers, streams, lakes or other  
waters within this State, by the  
drainage into such waters of any of-  
ficial or raw sewage, the effect of  
which may be to endanger public  
health or to destroy or injure the fish,  
animal and plant life in such waters.  
This section, however, shall not be  
construed to prohibit the drainage of  
to such waters subject to such reason-  
able regulations as may be pre-  
scribed by law, of effluent sewage,  
or waste products which have been  
treated in and separated by efficient  
sewage disposal plants so as to ren-  
der the effluent innocuous.

years in the navy service, received  
his discharge March 11 at Portsmouth,  
N. H., and is now at the home of his

West Michigan avenue. He was  
graduated in the class of 1916  
from the high school and entered the  
naval service shortly after. His  
period of training was at the Great  
Lakes Station and he subsequently

## L. C. SENEZES FORFEIT TO SENIORS

The second game of the series be-  
tween the classes at Illinois College  
was scheduled for yesterday after-  
noon, but owing to the fact that sev-  
eral of the seniors were out of town  
with the Club Club the game was  
winter a team. Bruce Whistler and  
Horatio Green filled in and a game  
was played although it will not count  
in the contest.  
The game was clean and hard  
fought.

Because it is made in the most careful and scientific manner from absolutely pure materials that remain pure in the baking and insure wholesome, healthful foods.

Because it possesses the greatest leavening power.

Because it is not affected by time or weather—it never loses its strength and never fails.

Because it is most economical—you save when you buy it and you save when you use it.

These are the reasons why Calumet is the standard baking powder—the choice of millions—more being sold than of any other brand.

teachers will attend. This applies to city and county schools as well. Word has been received from various counties ranging from Macon to Scott stating that their schools have been closed for this occasion. It is estimated that between 1200 and 3000 teachers will be in attendance.

The program has been arranged with the idea of giving help along the newer lines in post-war education emphasis as well as a general professional enthusiasm.

Friday morning H. H. Bancroft will deliver an address on the subject, "An Educational Trinity." Mr. Bancroft is perhaps the most famous student of large movements in Illinois history and is one of the best speakers in the state.

State Supt. F. G. Blair speaks Friday afternoon on the subject, "The Teacher Situation in Illinois." The excellent quality of Supt. Blair's address is too well known to need comment. His presence on the program speaks for itself.

The Friday afternoon sectional meetings are full of the emphasis of the better modern movements in education as is shown by the discussion of such topics as the Unit Rotation Plan in Teaching, Agriculture, Progressive Movements in Education, A Silent Reading Demonstration, Problem Project Method in Social Science Subjects, Intelligence Testing and Its Use in High School.

These subjects are presented by people who are actively engaged in the work.

The Friday evening session is of special importance. The first part of the evening is given over to a musical conducted by Alfred H. Bergen, soloist, of the Illinois Wesleyan Conservatory of Music, and Wallace Grieves, violinist, of a Springfield conservatory. The latter part of the evening is given over to an address by the famous lecturer, Dr. Charles E. Zeublin, on the subject, "What is an American."

Saturday morning the Weber Quartette and an address by Robert C. Moore, secretary of the State Teachers' Association, insures a worth while session preceding the usual business routine.

This division of the State Teachers' Association was organized in order to care for the needs of teachers within a radius of about 50 miles from Springfield as a center.

Other Associations held their meetings so far away and it has been impossible for many of our teachers to attend. The new association makes it possible for teachers within this section to attend with a minimum of inconvenience and expense.

The public schools are closed for the meeting. The teachers at the Illinois School for the Deaf and the State School for the Blind are also in attendance, there being no school at these institutions because of the sessions.

## ILLINOIS COLLEGE LOST TO NORMAL

Defeated by Score of 33 to 15—  
Same Team upset dope pot by beating Millikin in Morning Game

Coach Hermon's Illinois College five lost its first game in the Little Nineteen state basketball tournament to Illinois Normal at Rock Island Thursday night.

This team upset the dope in the morning round by whipping Coach Wann's much touted Millikin squad by a score of 24 to 23.

Millikin must now win two games to get on equal terms with Normal. This is going to be hard to do as all of the teams will fight Millikin hard and with more confidence now that they know she is beatable.

Lombard College is also showing class in the tournament and turned in two victories in the first day's play. The scores:

## COMMITTEES PLAN FOR SOLICITATION

Will Call On Citizens to Solicit for boulevard lights—Property Owners on Seven streets will be asked to assist in payment for Lights.

Fletcher Hopper general chairman of the committees appointed Wednesday evening to solicit property owners for boulevard lights on East and West State streets, North and South streets, North Church street and West College avenue, stated yesterday that all was in readiness for the work.

A meeting of the committees was held with Mr. Hopper Thursday afternoon and the plan of procedure outlined. It is expected that work of solicitation will begin immediately.

Mr. Hopper said last night that if citizens in general realized the great benefit derived from a boulevard lighting there would be little trouble in raising sufficient funds to carry out the work.

It is especially desired that the streets named above be equipped with boulevard lights. When this is done Mr. Hopper believes it will make such an improvement that it will be an easy task to take up other streets and equip them with boulevard lights.

## GOOD VAUDEVILLE BILL AT THE GRAND

For the first time in two years lovers of good vaudeville have the opportunity of witnessing five first class acts at the Grand this wee. The bill opens with Les Zernados, a trapeze novelty act followed by Poe and Poe, singing, dancing and music; next is Lehman and Thacell, with plenty of comedy, singing and talking; then comes Jack Symonds, "The Man of East." The last feature is the Great Herman, the mysterious man who thrills the audience with illusions, escapes and many other features. In fact this bill is one that will be greatly appreciated by all.

## DOKAYS HAVE BIG TIME IN HANNIBAL

Instituted New Temple in That City—Eighty-five Made Trip From Here—Dr. Frank Hall Heads New Temple.

Eighty-five Dokays made the trip to Hannibal Thursday afternoon to institute the new temple, that had been formed there.

The temple which will be known as El Mark Twain Temple No. 331 named in honor of the great humorist whose early life was spent there, starts with a charter membership of 122.

The Jacksonville delegation went to Hannibal on the Wabash flyer Thursday afternoon. The party was met at the station by the Hannibal people and a parade was formed and marched to Castle hall at Twelfth and Broadway.

At 4 o'clock the meeting was called to order by Dr. Frank L. Hall. The invocation was by Rev. H. B. Cox, Mayor J. K. Mills made the address of welcome and the response was by L. O. Vaught of Ilderim Temple.

L. O. Vaught who acted as representative of the Imperial Prince then took charge and instituted the temple. The temple was duly named and officers elected. Dr. Frank L. Hall being chosen as Royal Vizier. There were many Dokays present from Quincy and other adjacent cities.

At 5 o'clock Royal Vizier Carl E. Robinson took charge and the ritualistic work was carried out. At 6:30 an excellent supper was served by the Pythian sisters.

At 8 o'clock the temple again convened and an address was given by Grand Chancellor Paul Hinchey of Missouri. Past Grand Chancellor John J. Reese of Illinois also made a brief address.

McCarthy's Arabs then gave one of their celebrated drills which won much applause. Following this Frank Bradwell as Tolbi and John Bradfield as the victim gave the Sepulcher of Sin. This was followed by the Eighth order which was carried out until train time.

The Jacksonville delegation returned on the Wabash flyer Friday morning, tired but happy.
